

# Electrician – High Voltage

**Note: High voltage electricians may need to work in pairs to insure proper safety.**

If high-voltage electricians are needed please follow these steps in order until you reach an employee:

1. Call the contact listed for the current month from the list below (bold name first). If the high voltage electrician responding requests a second electrician, call the next contact for the month.
2. Call the Electrician - High Voltage Supervisor Steve Pavelec cell 319-415-3507.
3. Call a manager using the **Managers** list.
