

UNI STORMWATER & RUNOFF POLLUTION

COMPLAINT FORM

Wastewater and sewage from inside your home is treated and cleaned by waste water treatment or septic fields before it is released into surface water sources. Storm drains in the street flow directly to the streams and rivers without treatment.

No one is allowed to dump waste of any kind onto street surfaces, drainage pipes and ditches, or storm drains. They are only for water.

If you see someone dumping anything onto University street surfaces, into storm drains, or into other devices built to contain rainwater or runoff, please report it by calling the University Stormwater Hotline at (319) 273-4372 - (319) 273-4EPA or by using the form below. All personal information will be kept confidential.

Please send your complaint to 1801 W. 31st. Cedar Falls, IA 50614 or call the number above.

Contact information (optional)
